

## Washington State Department of Health - Food Safety Program

# 2006 Fall Food Safety Workshop

The Washington State Department of Health is pleased to invite you to the 2006 Fall Food Safety Workshop. Come enjoy a cornucopia of food safety with us at this free workshop.

Continuing education credit will be available for registered sanitarians.

Workshops will be held 9:00 AM - 4:30 PM at each location  
Check in begins at 8:30 AM.

## Topics

**Produce Handling** – Produce risks, recent outbreaks, review of effective produce washing and preparation, and current research

**Vibrio Outbreak** – An overview of the recent outbreak in Washington shellfish, covering what we learned and what we can do to prevent it from happening again

**Risk Analysis of Specialty Foods** – A look at the risks involved with foods that are traditionally prepared in a way that may be unsafe or conflict with the code

**Highly Susceptible Populations** – Inspections of places that serve highly susceptible populations provide unique challenges and require additional tools

**National Update** – Highlights from a variety of national food safety conferences. Includes recent food safety research, emerging information and techniques, updated looks at ongoing trends and analysis of food safety issues across the country.

**And Much More!**

**See you in December!**
